NOTES OF THE GIANTS.

PITTSBURG, Sept. 18.—Schauer, Thorpe and Grant were sent home this evening, and that privilege was accorded to Mathewson if he wanted to use it.

Four new players obtained by the draft will report in Chloago. They are two infielders, a pitcher and a catcher. It is McGraw's purpose to try out the youngeters extensively the rest of the way to see if there is material with which to bring about necessary improvement next year. That's about the only excuse the Giants have for finishing the schedule. There is little hope for their getting out of last place, a position which they have earned on the merits of their play.

As for Matry his arm has been of little.

DODGE BROTHERS ROADSTER

The beauty of this roadster will grow on you the longer you look at it.

At any angle from which you study it, you will search in vain for a single harsh line or curve.

Your first impression is one of substantial proportions, great staunchness and strength.

It has all of these qualities in a high degree.

But it weighs only 2150 pounds, and this lightness of weight adds wings to the powerful motor.

The body is all-steel-not steel on a wood frame, but steel throughout.

You discover one of the advantages of this elimination of useless wooden framework when you come to examine the storage space at the rear.

There is room there for an extraordinary equipment for two-luggage space for a continental tour, if you like.

As you can see, the finish is lustrous, fast and beautiful.

The seats are unusually wide and deep, and everything is at your finger's tips—a half an arm's length away.

A roadster in all that the word implies designed to carry two people with all the comfort their hearts can desire.
